mFLOR LVP flooring

mFLOR flooring is all-in-one! mFLOR floors are luxury vinyl planks (LVP) with a strong click connection and integrated underlay for optimal comfort and a quick and easy installation.

With this integrated underlay, mFLOR floors achieve a sound reduction of up to L_w 20 dB, to minimise sounds to a pleasant level. They can even be installed over slightly uneven surfaces, without any (permanent) preparations of the subfloor.

Click & go!

As mFLOR flooring has a powerful click connection, floating installation is simple. The floors can be installed over uneven surfaces quick and easy, without any (permanent) preparations of the subfloor!

This is how mFLOR combines all the comfortable advantages of LVP flooring with a quick and easy installation. The ideal flooring solution for every living and working environment, **click & go!**

Forest collection

Our Forest range really is a unique design floor. All our 8 Forest floors are based on real wood patterns and have a subtle, gentle look and feel. For the most natural color variations and pattern gradients.

Parva herringbone collection

mFLOR LVP click flooring is also available in herringbone pattern.

Herringbone flooring is extremely popular and our collection combines this classic parquet pattern with the practical benefits of LVP click flooring, offering the best of both worlds.

The subtle oak design of the mFLOR Parva collection with gentle wood grain and delicate color nuances radiates peace and warmth. Due to the unique size you can easily install the floor in a herringbone pattern and give your room a luxurious modern look with a classic twist.
